

In the Salmon Creek Beach Run's quiet return, 18 runners successfully tackled the worst sand and weather conditions in recent history. Though the banking was steep, and the fog was thick, all 18 finished with a smile on their face. After a year off, everybody was thrilled for the Salmon Creek Beach Run to be back, and we can't wait to race again in full force next year. Congratulations to Paul Skandera and Krista Dreschler, the first male and female runners of the day, and thank you to everybody for helping the Salmon Creek Beach Run return to action.
